# iHaveit Translates Seller Condition Jargon into marketplace understandings

Most buyers on eBay and other marketplaces **do not understand the music industry definitions** of Used inventory., resulting in issues, **returns, administration, and unreasonable negative feedback.**

iHaveit provides comprehensive descriptions, explaining what goldmine standards mean for each and every sales listing, resulting in customers mainly being very satisfied with items received.

- Good
- Fair
- Poor
- Bad
- No Cover

## The Media Condition is Very Good Plus

Visually this disk may have light visible wear, marks, and or hairlines. When playing some surface noise may be evident, especially in the quiet soft passages and during intro and fade, but the surface noise will not overpower the sound. The label on the disk is likely to have minor wear and possibly writing on the label.

# iHaveit is a **Proven Success Story** helping stores sell more

## **Action Records** Preston UK - **Gordon Gibson** says

Action Records joined iHaveit last year and have already sold over **3,000** records on their platform. We were encouraged by the simplicity of bulk listing and selling inventory, and the hands-on support offered to make selling as simple and easy as possible. We have noticed that iHaveit buyers are purchasing both collectable and nostalgic records from us, which has helped us move a lot of items that typically do not sell on other platforms.

There is an open collaboration between Action Records and iHaveit. Working closely together has helped us both make this a easy way to sell a lot more of our inventory.

## **Acoustic Soup** Chorley, Lancashire UK - **Ken Williams** says

from a standing start what iHaveit have achieved is remarkable, now our favourite partner and our preferred route to the Vinyl collectors market. iHaveit have boosted our sales by 25%, and enabled us to reach a demographic that in the past has been elusive to us

The iHaveit systems and processes are user friendly and there are none of the usual nagging doubts about if and when we'll get paid. Payments are real-time at time of sale confirmation, quick and trouble free. Anyone selling vinyl or any other music media needs to be with iHaveit.

Acoustic Soup have sold over **5,000** items
